

Merrill Lynch Required Minimum Distribution Service

What is the Merrill Lynch required minimum distribution service?

This convenient service allows you to authorize Merrill Lynch to automatically calculate and distribute your annual required minimum distribution (RMD) from your individual retirement account (IRA) to a Bank of America or Merrill Lynch account or an account at another financial institution.

- An RMD is the minimum amount you must begin taking each year from your IRAs after reaching age 70½.
- If this is your first distribution year, you have until April 1 of the year after you reach age 70½ to take your first distribution. In all years after that, your RMD must be taken by December 31.

Merrill Lynch has created this service to make it easier for you to have your RMD paid to you each year.

Who can participate?

This service is available to IRA, IRRA®, Simplified Employee Pension (SEP) IRA and Savings Incentive Match Plan for Employees (SIMPLE) IRA clients who must take RMDs.

- Inherited IRA owners may be eligible for the Beneficiary RMD Service; however, keep in mind that distributions from an Inherited IRA do not satisfy your RMD requirements from other IRAs. For more detailed information on the Beneficiary RMD Service, you may request a copy of the Merrill Lynch Beneficiary Required Minimum Distribution Service fact sheet from your Financial Advisor.
- Clients who do not have a year-end value cannot enroll for that year.

What are the benefits of the RMD distribution service?

- This service will simplify the distribution process by automatically calculating and distributing your RMD each year.
- By automatically calculating your distribution, Merrill Lynch helps ensure that your RMD is taken each year, avoiding potential additional taxes.
- The service also helps ensure that you do not over or under distribute in a given year.

How does the service work?

- Each January, Merrill Lynch will provide you with an annual RMD calculation for each IRA you own at Merrill Lynch.* Your RMD amount for each IRA is calculated based on its December 31 value from the previous year, your age at the end of the current year, and under certain circumstances, your primary beneficiary's age.
- The service automatically will send your RMD to you by check, electronically distribute it into your Merrill Lynch Cash Management Account® (CMA® account) or Bank of America checking or savings account, or distribute it to an account at another financial institution over a payment frequency you select for the calendar year.
- You can also elect to fund your scheduled distribution by authorizing Merrill Lynch to automatically liquidate specified mutual funds in your account, if eligible.
- If you maintain multiple IRAs at Merrill Lynch and want each of your RMDs automatically distributed to you each year, you must enroll each account separately in the service.
- If you take a one-time distribution outside of this service, you will have the option to subtract the distribution amount from the Service's remaining calculated RMD amount.

*Provided all necessary information is filed.

How do you enroll?

To enroll in the service, simply follow these steps:

1. Complete the Merrill Lynch Required Minimum Distribution Service Enrollment and Authorization Form.
2. Tear off and return the completed form, along with any additional documentation, if required, to your Financial Advisor's office.

You will receive a written confirmation of your enrollment when completed.

Enrollment in the service is limited to one distribution instruction per account. If you require funds in excess of your RMD, please ask your Financial Advisor for more information.

What happens if a scheduled distribution does not occur?

It is your responsibility to ensure liquid funds (cash and/or money accounts) are available for your scheduled distribution. If a scheduled distribution does not occur, you may not meet your RMD obligation and may be subject to an additional tax of 50% of the difference between the RMD amount you should have taken and the amount actually taken.

- You may elect the automatic liquidation of mutual funds service to help ensure that funds are available. If you elect to fund your distribution via automatic liquidation, it is your responsibility to ensure that the selected funds are available at the time of redemption.
- Merrill Lynch will adjust future payments to make up for a missed distribution. If a scheduled distribution does not occur, Merrill Lynch will divide the remaining RMD amount by the remaining total number of payments scheduled, based on your selected payment frequency, to satisfy your RMD for that year.
- If sufficient liquid funds are unavailable in your account on a scheduled distribution date, Merrill Lynch will continue to monitor that account for available cash and/or money accounts for 15 days.
- If funds become available during the 15-day period, Merrill Lynch will attempt to make the scheduled distribution. If sufficient funds are still unavailable after 15 days, we will be unable to process your distribution request. You may have to take other action to meet your RMD obligation for that year. You will be notified in the event that your scheduled distribution is unable to be processed.

For scheduled distributions in December, Merrill Lynch will stop monitoring your account for available funds on the last business day of the tax year (typically December 31), even if the 15 days have not passed. If funds are still unavailable on December 31, we will be unable to process the distribution request. If there is a possibility that your account may have insufficient funds from which to make RMDs, contact your Financial Advisor in sufficient time to liquidate your investments to raise the needed funds.

What happens if you enroll for the current year?

- Generally, the amount of each scheduled distribution is calculated by dividing the annual RMD by the total number of payments scheduled for that year. However, if you enroll in the service with a current-year start date, Merrill Lynch will, if necessary, prorate your remaining scheduled payments, based on your selected payment frequency, to satisfy your RMD for that year.
- Distributions taken from your account before your enrollment in the service will not be automatically considered when prorating your scheduled distributions. For example, if you enroll in June, choose monthly distributions and your RMD is \$12,000 for that year, Merrill Lynch will distribute \$2,000 per month from July through December.
- Inform your Financial Advisor if, when prorating your scheduled distributions, you want to consider previous distributions taken from your account before enrollment in the RMD Service.

What if you already have instructions on file?

For accounts with existing periodic distributions, please contact the office servicing your account before you enroll to discuss whether those instructions should be changed or canceled. Enrolling in the service will not automatically cancel any existing instructions.

The remaining unfulfilled amount will be liquidated proportionately from the other specified funds. If the amount is still unavailable, the system will use available cash/cash equivalents to fulfill the distribution.
- Contingent deferred sales charges (CDSC), redemption fees and/or transaction fees may apply and result in insufficient funds to process the requested distribution.

Withholding Notice

Federal income taxes are required to be withheld (subtracted) from your distribution at a flat rate of 10% unless you tell us that you do not want any taxes withheld. State income taxes will be withheld according to the specific requirements of the state in which you reside. You must use this form to instruct us whether you want income taxes withheld from distributions you will receive from your retirement account. Even if you elect to not have federal and state taxes withheld from your distribution, you are liable for payment of federal and state income taxes on the taxable portion of your distribution.

How to choose not to have taxes withheld

If you do not want any federal taxes withheld from your distributions, check the appropriate box in part 5 (Withholding Election). Your selection will also serve as an election not to have state taxes withheld from your distributions. If you do want state taxes withheld, check the appropriate box and indicate the applicable state withholding rates. If you do not make an election, ***we will assume you choose to have federal and, if applicable, state income taxes withheld from all distributions.***

Changing your choice

You can change your withholding election at any time or as often as you wish by completing the appropriate federal and state tax withholding sections.

Estimated Taxes

Under Internal Revenue Service Rules, if you choose not to have federal income taxes withheld, or if the amount withheld from your distribution is not sufficient, you may be responsible for paying estimated taxes each quarter. When your actual taxes for a year are determined, you could incur IRS penalties if your estimated federal income tax payments were not sufficient.

You may incur similar tax penalties under state law.
