## Important Information

The availability of the bank deposits and money market mutual funds included in this rate sheet is based on account type and may depend on other eligibility criteria.

There is no assurance that trades for Money Market Mutual Funds or deposits for Bank Deposits can be completed to obtain these yields. Yields shown are indicative of recent yields as of the dates shown and are subject to change and availability.

The short-term bank deposit and investment solutions shown are not comprehensive and other, similar solutions may be available. This rate sheet does not constitute a recommendation or solicitation by Merrill Lynch for the purchase or sale of any particular product.

Merrill Lynch and its representatives do not provide tax, accounting or legal advice. Any tax statements contained herein were not intended or written to be used, and cannot be used, to avoid U.S. federal, state or local tax penalties. Please consult your advisors as to any tax, accounting or legal statements made herein.

## Bank Deposits

Annual Percentage Yield ("APY") of a bank deposit account is a rate based on daily compounding of interest and assumes interest is not withdrawn from the deposit account and no change to the interest rate for one year. Note that the interest rate (and APY) may change at any time, at the depository bank's discretion, after the deposit account is opened. The depository bank uses the daily balance method to calculate interest on your deposit account, which applies a daily periodic rate to the principal in your deposit account each day. Fees may reduce earnings.

## Money Market Mutual Funds

**Investing involves risk. For more complete information on any mutual fund, please request a prospectus and/or, if available, a summary prospectus from your Merrill Lynch Financial Advisor or a Merrill Edge representative and read it carefully. Before investing, carefully consider the investment objectives, risks, and charges and expenses of the fund. This and other information can be found in the fund's prospectus and/or, if available, summary prospectus.**

Seven-day yields are obtained from a Money Market Mutual Fund service provider. The seven-day current yield is based on the average net income per share for the seven days ended on the date specified above, and the offering price on that date. The current yield reflects any voluntary waivers or reimbursement of fund expenses by the advisor or its affiliates. Absent of these waivers or reimbursement arrangements, performance would have been lower. **Please contact your Merrill Lynch Financial Advisor or Merrill Edge representative for current yield information. The seven-day yield shown more closely reflects the current earnings of the fund than the total return performance information.** Taxable equivalent yields are for illustrative purposes only. The taxable equivalent yield assumes a 37.0% federal tax rate and will vary based on your federal tax rate.

Dividends from the tax-exempt money market mutual funds and the state-specific money market mutual funds are exempt from federal income tax; dividends from state-specific funds are exempt from the respective state's income tax as well. A portion of these funds' income, however, may be subject to the federal alternative minimum tax (AMT).
