Investing for a financially secure retirement is everyone’s responsibility— but for small businesses, traditional retirement plans are often perceived as too costly or complex to implement.

A Simplified Employee Pension (SEP) plan provides an affordable, easy-to-manage solution to help you work toward the retirement you want. A SEP is a flexible, cost-effective retirement plan that offers you and your employees (if you have them) an opportunity to build retirement assets through tax-deferred growth.

With a SEP, employer contributions are made directly to traditional IRAs (individual retirement accounts) that you set up for yourself and each eligible employee. One of the flexible features of a SEP is that you are not locked into making contributions every year. In fact, each year you decide whether to and how much to contribute. This may make a SEP an appropriate option for businesses with variable cash flow.

Benefits to your business

**Tax benefits**

- Contributions you make to the individual accounts under your SEP are generally tax deductible by the business. Speak to your tax advisor for more information.
- Your business may be eligible for a tax credit of up to $500 for each of the first three years if this is your first SEP and you have 100 or fewer employees.¹
- You can establish a SEP and make contributions by your business tax-filing deadline, including extensions, to take advantage of the potential tax opportunities for the preceding calendar year.

¹Tax credit limit and eligibility may depend on the size of your business. Please consult your tax advisor.
Low fees, less paperwork

• No plan setup fee or administrative fees.
• Account level fees may also apply for certain transactions including account closure.
• Generally less ongoing administration as compared to other employer-sponsored retirement plans, such as a 401(k).
• No program or administrative fees apply to a SEP opened online. Custodial fees may apply to a SEP opened with assistance from a Merrill advisor for Small Business.
• No requirement to file Internal Revenue Service (IRS) Form 5500.

Flexible contribution options

• Flexibility to contribute as your cash flow allows. You can choose to contribute only during profitable years, or even change the amount of your contribution from year to year based on your company’s financial performance.
• Flexibility in calculating contributions to meet the needs of your workforce.

Limited liability

• Employees exercise control over the investment direction and distribution of assets in their individual SEP accounts, which may limit your liability as plan sponsor.

Benefits to you and your employees

High contribution limits

• You may contribute annually the lesser of 25% of compensation or 20% of net earnings from self employment, or $57,000 for yourself and each eligible employee for 2020 ($56,000 for 2019) up to your tax-filing deadline, including extensions.  
• Rollover contributions are permitted.

Tax benefits

• Contributions have the potential of growing tax deferred until withdrawn.
• Taxes are paid on distributions when withdrawn, at which time you may be in a lower tax bracket.

Power of compounding

• While you work, your SEP account is also working. With compounding, earnings realized on investments—including interest, dividends or other returns—may then accumulate additional earnings.

Investment choices and flexibility

• Employees can control how they invest their assets and may choose to invest in a variety of investment options.
• All contributions are 100% vested immediately.
• Investments may be subject to commissions, loads and operating expenses.

Eligibility

• At least 21 years of age.
• Earn a minimum of $600 annual compensation.
• Worked for the company in at least three of the past five years.
Planning for retirement can’t wait
Get started with your SEP IRA by contacting a Merrill advisor for Small Business.

1 Retirement Savings Contributions Credit (Saver’s Credit). Please refer to www.IRS.gov for more information.
2 Compensation limit per employee is $285,000 for 2020 ($280,000 for 2019). Limits for subsequent years may vary.
3 Withdrawals are subject to ordinary income tax. In addition, a federal 10% additional tax may apply to withdrawals taken prior to age 59½.
4 You may adopt less restrictive eligibility requirements, if desired.
5 For more information, see IRS Publication 560: Retirement Plans for Small Business (SEP, SIMPLE, and Qualified Plans).

Investing involves risk, including the possible loss of the principal value invested.

Merrill, its affiliates, and financial advisors do not provide legal, tax, or accounting advice. You should consult your legal and/or tax advisors before making any financial decisions.
