

Merrill Lynch Beneficiary Required Minimum Distribution Service through Merrill Edge®

If you have established an inherited Individual Retirement Account (IRA) as a first-generation IRA beneficiary, you can continue the tax-deferred growth potential of the account's remaining assets and distribute the assets over your life expectancy or the remaining life expectancy of the original IRA owner. In doing so, you will be required to take Required Minimum Distributions and may want to consider Merrill Lynch's Beneficiary Required Minimum Distribution Service.

What is the Merrill Lynch required minimum distribution service?

This convenient service allows you to authorize Merrill Lynch to automatically calculate and distribute your annual Required Minimum Distribution (RMD) from your inherited IRA to a Bank of America banking or Merrill Lynch investment account or an account at another financial institution.

- An RMD is the minimum amount you must begin taking each year from your inherited IRA beginning December 31 of the year after the year of the original owner's death.

Merrill Lynch has created this service to make it easier for you to have your RMD paid to you each year.

Who can participate?

- The service is available to first-generation IRA beneficiaries who have elected to take RMDs and have established one of the following types of inherited IRAs at Merrill Lynch: Traditional IRA, Individual Retirement Rollover Account® (IRRA), Roth IRA, Simplified Employee Pension (SEP) IRA or Savings Incentive Match Plan for Employees (SIMPLE) IRA.
- This service is not available for 1) IRA beneficiaries who have purchased annuities within their inherited IRA, 2) successor (second-generation) beneficiaries, 3) beneficiaries who are not individuals (e.g., estates, charities and most trusts) or 4) IRAs that include unpriced assets held on the Merrill Lynch system.
- Clients who do not have a prior year-end value for their IRA cannot enroll for that year.

A Merrill Edge Financial Solutions Advisor™ can work with your attorney and tax advisor to determine if you are eligible for the service.

What are the benefits of the RMD service?

- It simplifies the distribution process by automatically calculating and distributing your RMD each year.
- By automatically calculating your distribution, the service helps ensure that your RMD is taken each year, helping you avoid potential additional taxes.
- The service also helps ensure that you do not over- or under-distribute in a given year.

How does the service work?

- Upon enrollment, and every January after that, Merrill Lynch will provide you with an annual RMD calculation.
- The service automatically will send your RMD to you by check, electronically place it in your Cash Management Account® (CMA® account) or Bank of America checking or savings account, or distribute it to an account at another financial institution at intervals you select for the calendar year.
- You can authorize Merrill Lynch to automatically liquidate specified mutual funds prior to your periodic distribution provided all necessary information is on file.
- If you take a one-time distribution outside of this service, you will have the option to subtract the distribution amount from the service's remaining calculated RMD amount.

How do you enroll?

1. Complete the Merrill Lynch Beneficiary RMD Service Enrollment and Authorization Form (pages 3-6). A Merrill Edge Financial Solutions Advisor™ can help you complete this form.

Enrollment in the service is limited to one distribution instruction per account. Your Financial Solutions Advisor can assist you if you require funds in excess of your RMD.

What happens if a scheduled distribution does not occur?

It is your responsibility to ensure liquid funds (cash and/or money accounts) are available for your scheduled distribution. If a scheduled distribution does not occur, you may not meet your RMD obligation and may be subject to an additional tax of 50% of the difference between the RMD amount you should have taken and the amount actually taken.

- You may elect the auto liquidation service to help ensure funds are available. If you decide to fund your distribution through automatic liquidation, it is your responsibility to ensure that the selected funds are available at the time of redemption.
- Merrill Lynch will adjust future payments to make up for a missed distribution. If a scheduled distribution does not occur, Merrill Lynch will divide the remaining RMD amount by the remaining total number of payments scheduled, based on your selected payment frequency, to satisfy your RMD for that year.
- If sufficient liquid funds are unavailable in your account on a scheduled distribution date, Merrill Lynch will continue to monitor that account for available cash and/or money accounts for 15 days.
- If funds become available during the 15-day period, Merrill Lynch will attempt to make the scheduled distribution. If sufficient funds are still unavailable after 15 days, we will be unable to process your distribution request. You may have to take other action to meet your RMD obligation for that year.

For scheduled distributions in December, Merrill Lynch will stop monitoring your account for available funds on the last business day of the tax year (typically December 31), even if the 15 days have not passed. If funds are still unavailable on December 31, we will be unable to process the distribution request. If there is a possibility that your account may have insufficient funds from which to make RMDs, contact Merrill Edge in sufficient time to liquidate your investments to raise the needed funds.

What happens if you enroll for the current year?

- Generally, the amount of each scheduled distribution is calculated by dividing the annual RMD by the total number of payments scheduled for that year. However, if you enroll in the service with a current-year start date, Merrill Lynch will, if necessary, prorate your remaining scheduled payments, based on your selected payment frequency, to satisfy your RMD for that year.

- Distributions taken from your account before your enrollment in the service will not be automatically considered when prorating your scheduled distributions. For example, if you enroll in June, choose monthly distributions and your RMD is \$12,000 for that year, Merrill Lynch will distribute \$2,000 per month from July through December.
- Please contact Merrill Edge if, when prorating your scheduled distributions, you want to consider previous distributions taken from your account before enrollment in the service.

What if you already have instructions on file?

For accounts with existing periodic distributions, please contact a Financial Solutions Advisor before you enroll to discuss whether those instructions should be changed or canceled. Enrolling in the service will not automatically cancel any existing instructions.

Which factors are considered to determine your RMD calculation?

Determining your RMD and calculating it annually can be complex. Many of the following factors must be taken into account:

- Your relationship to the original IRA owner (spousal or non-spousal individual).
- Whether the original IRA owner dies before or after his or her required beginning date (RBD). The RBD is the date the original IRA owner was or would have been required to start taking his or her RMDs.
- The inherited IRA balance as of December 31 of the prior year.
- The designated beneficiary's birth date.
- Whether or not you were one of multiple beneficiaries.
- If you were one of multiple beneficiaries, whether or not separate inherited IRAs were established by all of the beneficiaries before December 31 of the year following the year of the original IRA owner's death.

The remaining unfulfilled amount will be liquidated proportionately from the other specified funds. If the amount is still unavailable, the system will use available cash/cash equivalents to fulfill the distribution.

WITHHOLDING NOTICE

Federal income taxes are required to be withheld (subtracted) from your distribution at a flat rate of 10% unless you tell us that you do not want any taxes withheld. Keep in mind you may owe more or less when you file your income taxes. State income taxes will be withheld according to the specific requirements of the state in which you reside. You must use this form to instruct us whether you want income taxes withheld from distributions you will receive from your retirement account. Certain states require that you complete their state form to opt out of state taxes when your distribution is subject to federal income taxes. To determine your state's requirements, please request a copy of the supplemental State Tax Withholding Rate document. Even if you elect not to have federal and state taxes withheld from your distribution, you are liable for payment of federal and state income taxes on the taxable portion of your distribution.

How to choose not to have taxes withheld.

If you do not want any federal taxes withheld from your distributions, check the appropriate box in Part 7 (Withholding Election). Your selection will also serve as an election not to have state taxes withheld from your distributions. If you do want state taxes withheld, check the appropriate box and indicate the applicable state withholding rates. If you do not make an election, we will assume you choose to have federal and, if applicable, state income taxes withheld from all distributions.

Changing your choice.

You can change your withholding election at any time or as often as you wish by completing the appropriate federal and state tax withholding sections.

Estimated taxes.

Under federal tax regulations, if you choose not to have federal income taxes withheld, or if the amount withheld from your distribution is not sufficient, you may be responsible for paying estimated taxes each quarter. When your actual taxes for a year are determined, you could incur additional taxes if your estimated federal income tax payments were not sufficient. You may incur similar taxes under state law.
