# Here's an overview

## **What is the Merrill tax reporting statement?**

As a Merrill client, you may receive a consolidated 1099 tax reporting statement that summarizes your account information for the past year. It helps make it easy for you or your tax advisor to prepare your tax return.

## **Who gets a tax reporting statement?**

If you're a Merrill client who is an individual, a partnership, a sole proprietor, a taxable trust, an estate or any other entity for whom we're required to provide tax information or a Form 1099, you'll receive a tax reporting statement.

## **What will you find in your tax reporting statement?**

The annual tax reporting statement contains details on information that's required to be reported to the IRS. It also includes nonreportable information related to the activities in your Merrill account. Plus, you'll find all the latest legislative changes as well as instructions for reportable items you need to include when filing your tax return.

Your tax reporting statement includes the following sections:

- A summary of your account income for the prior year
  - Form 1099-DIV: Dividends and Distributions
  - Form 1099-INT: Interest Income
  - Summary of Original Issue Discount (OID) Items
  - Summary of Sales Proceeds
  - Form 1099-MISC: Miscellaneous Information
  - Distributions and Charges
- OID and sales proceeds details that may be IRS reportable at the transaction level

The following summary statements are available online if you have the appropriate account activity. The information is not reported to the IRS.

- The "Annual Summary" statement includes account activity information that's not reported to the IRS but is helpful in preparing an income tax return.
- If you're part of the Visa® program, you'll get the details of your Visa card and checking transactions on a Visa Card Transaction summary statement. This summary statement will be posted online at [MyMerrill.com](https://www.merrill.com)® or [MerrillEdge.com](https://www.merrilledge.com).

# Check the status of your linked accounts

If your monthly account statements are linked and you're eligible to receive multiple tax statements, your statement package will include the link status summary page. The link status summary includes a list of all the accounts within a statement link that have your household address and for which Merrill is required to provide annual tax reporting (Forms 1099). We'll package statements in the same envelope, when possible, and mail them to the primary account holder. We'll also provide the mailing status of the applicable tax statements and the page number(s) of the statement included within the package. The page numbers of each tax statement will be consecutive. For example, if the first tax statement is pages 1 through 10, the second statement will begin on page 11.

**IMPORTANT ITEMS FOR YOUR ATTENTION**

As a holder of a Widely Held Fixed Investment Trust, Real Estate Mortgage Investment Conduit and/or certain Collateralized Debt Obligations, you will be receiving a Supplemental Tax Information Statement in addition to this statement. The Supplemental Statement must be used in conjunction with this Tax Statement to complete your Tax Return. The Supplemental Statement will be produced and mailed to you on or before the March 15th IRS deadline.

As an owner of units in a Master Limited Partnership, you will receive a Form 1065, Schedule K-1, directly from the partnership. Although we have included any partnership distributions paid to your account in the Other Distributions and Charges section of this statement, we will not report this information to the IRS. The Form 1065, Schedule K-1 you receive will include your income, deductions, other items, and should be used in the preparation of your Tax Return.

Your Visa and Checking Statement is produced separately from your Tax Reporting Statement and is only available on MyMerrill.com or MerrillEdge.com. Online enrollment is necessary to access the statement. For more information, including how to download your Visa and Checking details into Microsoft Excel or other software, visit the Tax Education and Planning Center on MyMerrill.com or MerrillEdge.com.

All broker-dealers are required to report to the IRS both the date acquired and cost basis on a sale of a "covered security." Legislation requires reporting the gross proceeds of the sales of "covered" and "noncovered" securities and the adjusted cost basis for "covered securities." The gain/loss information for a "noncovered security" is included for your information, but will not be transmitted to the IRS.

Your tax reporting statement's cover page includes a Table of Contents that directs you to the start of each major section. You'll see a stop sign on the page if there are important items included in the statement that may affect your tax return.

## Important items for your attention

Occasionally, we may highlight information that could impact your tax return. In that case, we'd provide details in the "Important Items for Your Attention" section of the statement. For example, if you're scheduled to receive a Supplemental Tax Reporting statement because you hold a Widely Held Fixed Investment Trust (WHFIT), Real Estate Mortgage Investment Conduit and/or certain collateralized debt obligations, you'd be notified in this section.

**Note:** This section won't appear if there are no messages for you.

## Corrections

Merrill is only required to revise 1099 tax reporting statements when a change results in an individual tax form impact that is greater than \$100. If your impact does not meet this threshold, you will not receive a revised tax statement. However, if you would like to receive a revised tax statement regardless of dollar impact, contact your advisor to opt out of automatic suppression.

A corrected tax reporting statement replaces any previous tax reporting statement you may have received from Merrill. When we notify you of changes, an "Adjustments Applied to This Statement" section appears within the "Important Items for Your Attention" section on the cover page. This section highlights every security that was adjusted and includes an accompanying explanation for the correction made. If necessary, adjusted information will be provided to the IRS.

In addition, we've grouped a detailed, chronological breakdown of reportable transactions by security under the following categories:

You may, however, see data from various 1099 forms repeated in this section for your convenience, the totals of which are reportable to the IRS.

JOHN Q CUSTOMER							
<b>2023 TAX REPORTING STATEMENT</b>							
The following sections are provided to facilitate your review and the preparation of your tax return.							
The 2023 PROCEEDS FROM BROKER AND BARTER EXCHANGE TRANSACTIONS section includes both sales of positions for "covered securities" and "noncovered securities." A covered security includes securities when the purchase date of the security occurred within the following timeline: Equities acquired on or after January 1, 2011; Mutual Funds acquired on or after January 1, 2013; Option Transactions and less complex debt securities acquired on or after January 1, 2014, and more complex debt securities and options issued as part of a debt instrument acquired on or after January 1, 2016. Legislation requiring the gross proceeds of the value of "covered" and "noncovered" securities and the adjusted cost basis for "covered securities." Any sale of a security that is considered a "noncovered security" will still be included in this section with the adjusted cost basis (where available) but the adjusted basis will not be transmitted to the IRS.							
In calculating gain (loss), unless otherwise noted, it was assumed that the oldest position was liquidated first, and that you have made an election to amortize the premium paid on the purchase of taxable bonds. Under the Cost Basis Reporting Regulations, brokers need not track wash sale activity for substantially identical securities, transactions across accounts, or between covered and noncovered securities. However, you as a taxpayer still have to track and report wash sales as you have in the past which would include all of the aforementioned transaction types. Securities distributed from a retirement account reflect the tax basis on the date of distribution. Other methods for calculating gain (loss) are available. The cost basis for most Original Issue Discount ("OID") obligations includes the accretion of OID.							
This is important tax information and is being furnished to the Internal Revenue Service. If you are required to file a return, a negligence penalty or other sanction may be imposed on you if this income is taxable and the IRS determines that it has not been reported.

# Read these important reminders

We could receive amended information from mutual funds, real estate investment trusts (REITs) and unit investment trusts (UITs) after the IRS tax statement mailing deadline. As a result, we strongly discourage you from filing your tax return early if you're holding mutual funds, REITs and/or UITs. Below we've outlined how we address this situation so we can provide you with an accurate tax statement.

## Potential delay of tax statements

We may have to delay the delivery of your tax reporting statement(s) when we do not receive year-end income classification data for certain mutual funds, REITs and UITs. In preparing tax reporting statements, we rely on the issuers of these investments to provide information about classification of their annual distributions. Some of these institutions may be delayed in providing us with the required information in time to accurately produce all tax reporting statements by our deadline.

Merrill continues to be in the forefront of working with industry associations and the IRS to address the timeliness of income classification. In addition, we've been communicating our concerns and expectations directly to those issuers whose products are available to our clients. Although the issue continues to show steady improvement, providing accurate information on time remains an issue for a significant number of mutual funds, REITs and UITs. Our priority is to ensure the accuracy of your statement(s), and we will produce your tax reporting statement(s) as soon as possible.

## Amended returns due to reclassification

We typically begin printing tax reporting statements in late January. Some of the information in the statement is provided to us from outside sources and may occasionally be subject to change. Often, distributions made by mutual funds, REITs and UITs structured as regulated investment companies (RICs) need to be reclassified as a different type of distribution — for example, nondividend distributions, qualified dividends, long-term capital gain distributions or tax-exempt dividends subject to the AMT — after year-end financial information becomes available to the funds. Since we may not receive this amended information until after the IRS mailing deadline, we'll notify you of the amended information by providing you with a corrected tax reporting statement.

**Note:** Merrill is only required to send a corrected tax statement to you and the IRS when a change results in an individual tax form impact greater than \$100. If an error is identified and corrections are required on reportable transactions over \$100, Merrill will issue a new statement to you, highlighting any corrections that have been made.

If your impact does not meet this threshold, you will not receive a revised tax statement. However, if you would like to receive a revised tax statement regardless of dollar impact, contact your advisor to opt out of automatic suppression.

## Important information regarding certain investments

### Realized Gain Loss Reporting

Your tax statement includes the realized gain and loss information reflected on your monthly statements through the end of the year. The gain and loss information reflects income reclassifications reported to us related to return of capital. As a result, gains and losses for securities that reclassified their distributions to return of capital after the end of the year will be adjusted accordingly.

### Limited Partnership, Commodities Reporting

Information about certain transactions not included in this statement may be reported in separate statements from Merrill or other sources. If you traded commodities or other regulated futures contracts, these transactions should be reported to you on a separate tax reporting statement. Investors who hold limited partnership interests in their Merrill accounts should receive separate statements (Schedules K-1) directly from the partnership regarding their income and deductions from partnership activities.

### Widely Held Fixed Investment Trust, Real Estate Mortgage Investment Conduits, Collateralized Debt Obligation Reporting

A supplemental tax reporting statement will be produced for eligible clients who hold widely held fixed investment trusts (WHFITs), real estate mortgage investment conduits (REMICs) and/or collateralized debt obligations (CDOs). This statement is produced to comply with U.S. Treasury regulations that require all reporting for WHFIT and REMIC securities to be mailed to clients by March 18, 2024.
