Important: Please read the Withholding Notice before completing this section.

### Complete if you have a U.S. Address:

#### Federal Withholding (2024 IRS Form W-4R Withholding Certificate for Nonperiodic Payments):

Please note that if you do not make a withholding election, federal income tax will be automatically withheld from your distribution at a rate of 10%. For nonperiodic payments, the default withholding rate is 10%. You can choose to have a different rate by entering a rate between 0% and 100%. Generally, you can't choose less than 10% for payments to be delivered outside the United States and its territories. See page 6 for more information.

Complete this line if you would like a rate of withholding that is different from the default withholding rate which is 10%. Enter the rate as a whole number (no decimals). See page 6 for the 2024 Marginal Rate Tables. You may use these tables to help you select the appropriate withholding rate for this payment or distribution. Instructions on how to best use them are included.

Withhold federal income tax for this distribution at a rate of \_\_\_\_\_ % (must enter rate between 0-100% as a whole number, no decimals)

**Note:** You may choose to have no federal income tax withheld by entering -0- on the above line.

#### State Withholding:

State withholding may also be required in certain states. CA and VT state tax withholding is a percentage of the federal tax withholding.\* To determine your state's withholding requirements refer to the supplemental State Tax Withholding Rate Document.

The minimum required for the state of \_\_\_\_\_ is \_\_\_\_\_.

## Part 4: Withholding Election (Continued)

### Withholding Notice FOR IRA/IRRA®/Roth IRA/SEP/SRA Distributions Only

Federal income taxes are required to be withheld (subtracted) from your distribution at a rate of 10% unless you provide us with alternate withholding instructions for this transaction. State income taxes will be withheld according to requirements of the state in which you reside. You must use this form to instruct us whether you want income taxes withheld from distributions you will receive from your retirement account. Certain states require that you complete their state form to opt-out of state taxes when your distribution is subject to federal income taxes. To determine your state's requirements, please refer to the supplemental State Tax Withholding Rate Document. Even if you elect to not have federal and state taxes withheld from your distribution, you are liable for payment of federal and state income taxes on the taxable portion of your distribution.

#### How to choose not to have taxes withheld.

If you do not want any federal taxes withheld from your distributions, follow the instructions in Part 4 (Withholding Election) on the Distribution Form and sign at the bottom. Your selection will also serve as an election not to have state taxes withheld from your distributions. If you do want state taxes withheld check the appropriate box and indicate the applicable state withholding rates.

**If you do not make an election we will assume you choose to have federal and, if applicable, state income taxes withheld from all distributions.**

**Estimated Taxes.** Under Internal Revenue Service Rules, if you choose not to have federal income taxes withheld, or if the amount withheld from your distribution is not sufficient, you may be responsible for paying estimated taxes each quarter. When your actual taxes for a year are determined, you could incur IRS penalties if your estimated federal income tax payments were not sufficient. You may incur similar tax penalties under state law.

**General Instructions for IRS Form W-4R Withholding Certificate for Nonperiodic Payments and its substitute. Please complete Part 4: Withholding Election above to document your withholding rate election.**

**General Instructions**

Section references are to the Internal Revenue Code.

**Future developments.** For the latest information about any future developments related to Form W-4R, such as legislation enacted after it was published, go to [www.irs.gov/FormW4R](http://www.irs.gov/FormW4R).

**Purpose of form.** Complete Form W-4R to have payers withhold the correct amount of federal income tax from your nonperiodic payment or eligible rollover distribution from an employer retirement plan, annuity (including a commercial annuity), or individual retirement arrangement (IRA). See page 2 for the rules and options that are available for each type of payment. Don't use Form W-4R for periodic payments (payments made in installments at regular intervals over a period of more than 1 year)

from these plans or arrangements. Instead, use Form W-4P, Withholding Certificate for Periodic Pension or Annuity Payments. For more information on withholding, see Pub. 505, Tax Withholding and Estimated Tax.

**Caution:** If you have too little tax withheld, you will generally owe tax when you file your tax return and may owe a penalty unless you make timely payments of estimated tax. If too when you file your tax return. Your withholding choice (or an election not to have withholding on a nonperiodic payment) will generally apply to any future payment from the same plan or IRA. Submit a new Form W-4R if you want to change your election.

**2024 Marginal Rate Tables**

You may use these tables to help you select the appropriate withholding rate for this payment or distribution. Add your income from all sources and use the column that matches your filing status to find the corresponding rate of withholding. See page 2 for more information on how to use this table.

Cat. No. 75085T

Form **W-4R** (2024)

**Nonperiodic payments—10% withholding.** Your payer must withhold at a default 10% rate from the taxable amount of nonperiodic payments **unless** you enter a different rate on line 2. Distributions from an IRA that are payable on demand are treated as nonperiodic payments. Note that the default rate of withholding may not be appropriate for your tax situation. You may choose to have no federal income tax withheld by entering “-0-” on line 2. See the specific instructions below for more information. Generally, you are not permitted to elect to have federal income tax withheld at a rate of less than 10% (including “-0-”) on any payments to be delivered outside the United States and its territories.

**Note:** If you don't give Form W-4R to your payer, you don't provide an SSN, or the IRS notifies the payer that you gave an incorrect SSN, then the payer must withhold 10% of the payment for federal income tax and can't honor requests to have a lower (or no) amount withheld. Generally, for payments that began before 2024, your current withholding election (or your default rate) remains in effect unless you submit a Form W-4R.

**Eligible rollover distributions—20% withholding.** Distributions you receive from qualified retirement plans (for example, 401(k) plans and section 457(b) plans maintained by a governmental employer) or tax-sheltered annuities that are eligible to be rolled over to an IRA or qualified

plan are subject to a 20% default rate of withholding on the taxable amount of the distribution. You can't choose withholding at a rate of less than 20% (including “-0-”). Note that the default rate of withholding may be too low for your tax situation. You may choose to enter a rate higher than 20% on line 2. Don't give Form W-4R to your payer unless you want more than 20% withheld.

Note that the following payments are not eligible rollover distributions for purposes of these withholding rules:

- Qualifying “hardship” distributions;
- Distributions required by federal law, such as required minimum distributions;
- Generally, distributions from a pension-linked emergency savings account;
- Eligible distributions to a domestic abuse victim;
- Qualified disaster recovery distributions;
- Qualified birth or adoption distributions; and
- Emergency personal expense distributions.

See Pub. 505 for details. See also *Nonperiodic payments—10% withholding above*.

## General Instructions *(continued)*

**Payments to nonresident aliens and foreign estates.** Do not use Form W-4R. See Pub. 515, Withholding of Tax on Nonresident Aliens and Foreign Entities, and Pub. 519, U.S. Tax Guide for Aliens, for more information.

**Tax relief for victims of terrorist attacks.** If your disability payments for injuries incurred as a direct result of a terrorist attack are not taxable, enter “-0-” on line 2. See Pub. 3920, Tax Relief for Victims of Terrorist Attacks, for more details.

### Specific Instructions

#### Line 1b

For an estate, enter the estate’s employer identification number (EIN) in the area reserved for “Social security number.”

#### Line 2

**More withholding.** If you want more than the default rate withheld from your payment, you may enter a higher rate on line 2.

**Less withholding (nonperiodic payments only).** If permitted, you may enter a lower rate on line 2 (including “-0-”) if you want less than the 10% default rate withheld from your payment. If you have already paid, or plan to pay, your tax on this payment through other withholding or estimated tax payments, you may want to enter “-0-”.

**Suggestion for determining withholding.** Consider using the Marginal Rate Tables on page 1 to help you select the appropriate withholding rate for this payment or distribution. The tables are most accurate if the appropriate amount of tax on all other sources of income, deductions, and credits has been paid through other withholding or estimated tax payments. If the appropriate amount of tax on those sources of income has not been paid through other withholding or estimated tax payments, you can pay that tax through withholding on this payment by entering a rate that is greater than the rate in the Marginal Rate Tables.

The marginal tax rate is the rate of tax on each additional dollar of income you receive above a particular amount of income. You can use the table for your filing status as a guide to find a rate of withholding for amounts above the total income level in the table.

To determine the appropriate rate of withholding from the table, do the following. Step 1: Find the rate that corresponds with your total income not including the payment. Step 2: Add your total income and the taxable amount of the payment and find the corresponding rate.

If these two rates are the same, enter that rate on line 2. (See Example 1 below.)

If the two rates differ, multiply (a) the amount in the lower rate bracket by the rate for that bracket, and (b) the amount in the higher rate bracket by the rate for that bracket. Add these two numbers; this is the expected tax for this payment. To get the rate to have withheld, divide this amount by the taxable amount of the payment. Round up to the next whole number and enter that rate on line 2. (See Example 2 below.)

If you prefer a simpler approach (but one that may lead to overwithholding), find the rate that corresponds to your total income including the payment and enter that rate on line 2.

**Examples.** Assume the following facts for Examples 1 and 2. Your filing status is single. You expect the taxable amount of your payment to be \$20,000. Appropriate amounts have been withheld for all other sources of income and any deductions or credits.

**Example 1.** You expect your total income to be \$62,000 without the

payment. Step 1: Because your total income without the payment, \$62,000, is greater than \$61,750 but less than \$115,125, the corresponding rate is 22%. Step 2: Because your total income with the payment, \$82,000, is greater than \$61,750 but less than \$115,125, the corresponding rate is 22%. Because these two rates are the same, enter “22” on line 2.

**Example 2.** You expect your total income to be \$43,700 without the payment. Step 1: Because your total income without the payment, \$43,700, is greater than \$26,200 but less than \$61,750, the corresponding rate is 12%. Step 2: Because your total income with the payment, \$63,700, is greater than \$61,750 but less than \$115,125, the corresponding rate is 22%. The two rates differ. \$18,050 of the \$20,000 payment is in the lower bracket (\$61,750 less your total income of \$43,700 without the payment), and \$1,950 is in the higher bracket (\$20,000 less the \$18,050 that is in the lower bracket). Multiply \$18,050 by 12% to get \$2,166. Multiply \$1,950 by 22% to get \$429. The sum of these two amounts is \$2,595. This is the estimated tax on your payment. This amount corresponds to 13% of the \$20,000 payment (\$2,595 divided by \$20,000). Enter “13” on line 2.
